

German Cruiser Dresden Ashore Off Port of Gallegos

bitting on Lloyd's, which was 25

up by January 2.

**DRESDEN IN INLET
ON COAST OF PATAGONIA**
LONDON, December 12.—A dispatch
from the Evening News from Valparaiso,
Chile, says it is reported that the Ger-
man cruiser Dresden has taken refuge
in an inlet on the coast of Patagonia.
The Dresden is the only vessel of
the German squadron which met the
British fleet in the South Atlantic De-
cember 8 that has not been accounted
for.

The engagement of December 8 off
the Falkland Islands resulted in the
destruction of the German cruisers
Scharnhorst, Gneisenau and Leipzig.
After it was announced the Nürnberg
also had been destroyed. The Dresden
escaped, and was supposed to have fled
westward. That would take her to
the coast of Patagonia, where the Val-
paraiso report places her. Patagonia
and the Straits of Magellan offer
numerous bays and inlets where a ves-
sel could hide or take refuge. There
are also some Chilean ports where a
warship could intern.

British warships doubtless are in
pursuit of the Dresden, and it is said
that Japanese cruisers are watching
for her.

**ADVANTAGES IN BOTH FIELDS
CLAIMED BY GERMANS**
BERLIN, December 12 (by wireless
to London, 5:22 P. M.).—Advantages
for the German armies in both the
west and the east are reported in an
official statement given out today at
military headquarters. The attacks of
the allies in France and Belgium have
been repulsed, and the Germans have
gained ground near Arras and in the
Argonne. In the east, the Russian
forces were beaten back in the fighting
along the East Prussian frontier and
in Southern Poland.

**SEABORNE ATTACKS
ON FIRTH OF FORTH**
LONDON, December 12.—An Edin-
burgh dispatch to the Daily Mail re-
ports two German submarine attacks
were made on the Firth of Forth on
Wednesday morning, but they were re-
pulsed. Two of the enemy's sub-
marines, the dispatch says, were de-
stroyed.

The admiralty has no confirmation
of the report.

Rosyth, off the shore of Fife, immedi-
ately west of the great Forth Bridge.
Because of its advantageous situation,
England undoubtedly has a strong fleet
gathered there; hence the report com-
ing from Germany that a submarine at-
tack on the Firth of Forth is no sur-
prise.
The Firth of Forth is the estuary
of the River Forth—a baylike extension
of the river, about fifty miles long and
where widest nearly fifteen miles
across. The principal port on the
Firth of Forth is Leith, the port of
Edinburgh.

sued this evening says:
"There is no new incident to re-
port."

**GOTTORP BARRACKS
DESTROYED BY FIRE**
COPENHAGEN, December 12 (via
London, 8:23 A. M.).—News has been
received here that the great Gottorp
barracks near Kiel have been com-
pletely destroyed by fire, the origin of
which is kept secret.

The Gottorp barracks are twenty-
five miles northwest of Kiel, on an
island between the Schiel and Burg
Sees. The old ducal Schloss Gottorp is
the main building of the barracks.

**FIGHTING AT LODZ COST
RUSSIANS 150,000 MEN**
BERLIN (via London, 8:30 P. M.).
December 12.—The fighting that pre-
ceded the German capture of Lodz,
Poland, cost the Russians 150,000 men
in killed, wounded and captured, while
the German losses were comparatively
small, according to a statement to-
day by the official press bureau.

"The evacuation of Lodz took place
secretly in the middle of the night
and remained unnoticed by us at first,
but it was the result of the previous
three days' battles," says the bureau's
statement.
"In these engagements the Russians
suffered severely from the fire of our
artillery. The trenches evacuated by
them were literally filled with dead.
Not even after the battle of Tannenberg
did our troops have to march
over so many Russian corpses as they
did in the battles around Lodz and
Lowitz."
"Our losses were much smaller than
those of the Russians. We lost com-
paratively few men killed. The
Twenty-fifth Reserve Corps, in break-
ing through the Russian lines, had
only 120 killed.
"It is significant that on a height

tion of the laying of German mines,
which have destroyed three Swedish
vessels, is considered far from satis-
fying by the Swedish press, accord-
ing to the Aftonbladet.
The answer denies that German ships
laid mines on Saturday or Sunday last,
but says nothing concerning previous
days.
It admits, that owing to the inten-
tion of Russia to establish a winter
naval base, German mines were laid
"later than Sunday," of which Sweden

Help Your Kidneys

They Are Invariably the Cause of Ill
Health.

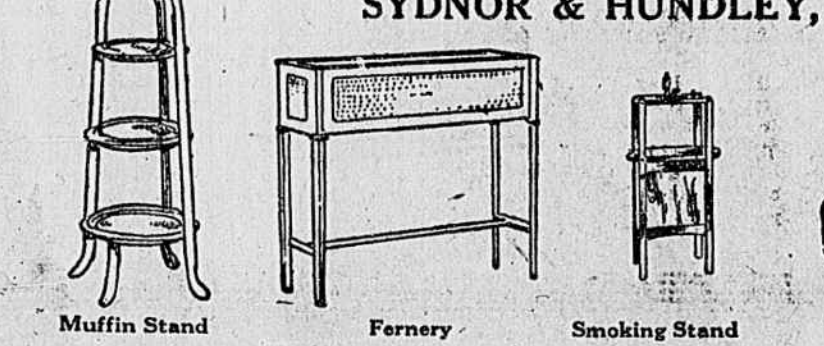

It is surprising what a vast amount
of misery and pain humanity is sub-
jected to as a result of neglected kid-
ney ailments. The kidneys constitute
the sewer system of the body which
filter and strain the poisonous mat-
ter out of the blood. If the kidneys
are in any way overloaded, or a cold
settles in, they become congested and
inflamed. When the filtering process
is thus interfered with, the blood be-
comes overloaded with poisonous mat-
ter and serious results are sure to
follow. If you are troubled with back-
ache, dizziness, aching joints, nausea,
or other symptoms of kidney disease,
you should lose no time in testing
what Warner's Safe Kidney and Liver
Remedy will do for you. It will help
you from the very first dose.

Mrs. W. P. Brabham, of Govern, S. C.,
says: "About twenty-five years ago I
was very sick; nine doctors gave up
my case as hopeless. I was advised to
try Warner's Safe Kidney and Liver
Remedy, and it put me on my feet again.
I have advised numerous people
to take it, and they say they get
splendid results, and always keep it on
hand."
Warner's Safe Kidney and Liver
Remedy has been a
standard for 37 years in the
treatment of kidney ail-
ments. It is sold by all
druggists in 50c and \$1.00
sizes. A free sample and

**SEVERE RHEUMATIC
PAINS DISAPPEAR**
Rheumatism depends on an acid
which flows in the blood, affecting the
muscles and joints, producing inflam-
mation, stiffness and pain. This acid
gets into the blood through some de-
fect in the digestive processes and re-
mains there because the liver, kidneys
and skin are too torpid to carry it off.
Hood's Sarsaparilla, the old-time
blood tonic is very successful in the
treatment of rheumatism. It acts di-
rectly, with purifying effect on the
blood, and through the blood on the
liver, kidneys and skin, which it stimu-
lates, and at the same time it improves
the digestion.

ANOTHER LEPER JOINS EARLY
Men in Same Detention House and
With Same Guards.
[Special to The Times-Dispatch.]
WASHINGTON, December 12.—The
isolation of John Early in his leprosa-
rium was broken to-day, when Emil R.
Grable, Washington's second leper,
joined him. The greeting was very
pathetic and Early, who has become
accustomed to his solitary life, com-
forted the other leper all he could.
Grable has been furnished the
same kind of furniture as Early has
in his quarters in the detention-house.
While they do not occupy the same
room, they have free access back and
forth, and the same guards will do
for both of them.

**Advise Lime for
Tuberculosis**
According to the Journal of the
American Medical Association (July 27,
1912, page 308), Dr. C. F. Dixon,
Minneapolis, holds that a "deficiency of
calcium" (lime) is responsible for the
physical conditions which lead to
tuberculosis, "and the therapy he ad-
vocates rests on this basis."
One of the reasons for wide-spread
success of Eekman's Alternative in the
treatment of tuberculosis and chronic
throat and bronchial troubles is its
ability to supply this deficiency.
It contains a life salt in such form
and so combined with other remedial
agents as to be easily assimilated by
the average person. There are on
record many cases in which it seems
to have effected complete and lasting
betterment.
However, we make no exaggerated
claims or Eekman's Alternative. We
prefer that it be tried on the same basis
as any other prescription, and we
believe it will help, for IT HAS
HELPED in many cases.
It contains no opiates, narcoties or
habit-forming drugs. Therefore, it is
safe to take. If your druggist is out
of it, he will order, or you can get it
direct.
